SERVICE PACKAGE

Strategic CTO-as-a-Service

Senior technology leadership at board level — without the cost or commitment of a full-time CTO hire.

WHO IT'S FOR

Insurance, fintech and other regulated businesses that need someone to own technical strategy, vendor decisions, architecture and team leadership, but aren't ready for — or don't need — a full-time executive.

WHAT'S INCLUDED

- ✓ Ongoing technical leadership: roadmap ownership, architecture decisions, vendor and tooling calls
- ✓ Direct involvement in hiring and structuring the dev team
- ✓ Regular reporting to founders / board
- ✓ Available for a set number of days per week or month, scaling with need

Why it matters: This is the credibility anchor — the role Nicola already plays at Furness Insurance Services, made available to companies that can't yet justify a full-time hire.
